Screen configuration

1. **The screen configuration**
   - ➢ **Display**
     - Number of colors supported: 16,777,216 colors
     - Resolution: 1366 x 768 pixels
   - ➢ **Screen**
     - Location of standard buttons: At the bottom (vertically) and in the middle (horizontally) of the frame
     - Location of messages: Starting from the top vertically and in the middle horizontally of the frame down to the bottom
     - Display of the screen title: The title is located at the top of the frame in the middle
     - Consistency in expression of alphanumeric numbers: comma for separator of thousand while strings only consist of characters, digits, commas, dots, spaces, underscores, and hyphen symbol.
   - ➢ **Control**
     - Size of the text: medium size (mostly 24px). Font: Segoe UI. Color: #000000
     - Input check process: Should check if it is empty or not. Next, check if the input is in correct format or not.
     - Sequence of moving the focus: There will be no stack frame. Each screen will be separated. However, the manual is considered a popup message, as the main screen cannot be operated while the manual screen is shown. After the opening screen, the app will start with splash screen, and then the first screen (home screen) will appear.
     - Sequences of the system
       1) Splash screen
       2) Home screen
       3) View cart screen – view items in the cart
       4) Delivery form – fill delivery information
       5) Rush order form – fill rush order information (display the screen if user choose rush order in delivery form)
       6) Invoice screen – view order details
       7) Payment form – fill payment information
       8) Result screen
   - ➢ **Direct input from the keyboard**

There will be no shortcuts. There are back buttons to move back to the previous screen. Also, there is the close button "X" located at the title bar to the right to close the screen.

➢ **Error**

A message will be given to notify the users what is the problem.
